This post will try to answer these questions by understanding fundamental concepts related to epipolar geometry and stereo vision. Most of the post's theoretical explanations are inspired by the book: Multiple View Geometry in Computer Vision by Richard Hartley and Andrew Zisserman. It is a very famous and standard textbook for understanding ...

Introduction to Epipolar Geometry and Stereo Vision

CAT prioritizes solving not sequence. If you aren't sure about an answer, leave it. Concentrate on other problems. You shouldn't spend more than 2-3 minutes on a single problem. Don't use the elimination method, if you can solve the problem in less than 1 minute. Do rough work thoroughly. Don't answer any questions, just by guessing.
