Reasoning, Decision-Making & Problem-Solving

Moral reasoning is a study in psychology that overlaps with moral philosophy. Starting from a young age, people can make moral decisions about what is right and wrong; this makes morality fundamental to the human condition. Moral reasoning, however, is a part of morality that occurs both within and between individuals. Prominent contributors to this theory include Lawrence Kohlberg and Elliot Turiel. The term is sometimes used in a different sense: reasoning under conditions of uncertainty, such
