Alberto Perez-Gomez. a + u Publishing Co., Ltd. Tokyo, Japan, 2006. Steven Holl, et al express phenomenology through a series of vignettes, breaking it down into senses and conditions of perception. The “phenomenal zones” are as follows: merging of object and field, perspectival space and incomplete perception, colour, light and shadow, spatiality of night, time duration and ...

Questions of Perception - Phenomenology of Architecture ...

In Phenomenology of Perception (1945) Merleau-Ponty developed a rich variety of phenomenology emphasizing the role of the body in human experience. Unlike Husserl, Heidegger, and Sartre, Merleau-Ponty looked to experimental psychology, analyzing the reported experience of amputees who felt sensations in a phantom limb.

Amazon.com: Customer reviews: Questions of Perception ...

Phenomenology of Perception (French: Phénoménologie de la perception) is a 1945 book about perception by the French philosopher Maurice Merleau-Ponty, in which the author expounds his thesis of "the primacy of perception". The work established Merleau-Ponty as the pre-eminent philosopher of the body, and is considered a major statement of French existentialism

Muller-Lyre illusion is not a question about perception, but only about the objective world. [top p.6] The phenomenology of perception must move from the categories of the world to the categories under which we perceive it.

Notes: The Introduction to The Phenomenology of Perception

communication, the perception of the world 'by Peter' is not Peter's doing any more than its perception 'by Paul' is Paul's doing; in each case it is the doing of pre-personal forms of consciousness, whose communication raises no problem, since it is demanded by the very definition of consciousness, meaning or truth.

Phenomenology of Perception

elaborates on an "architectural synthesis" in the book, "Questions of Perception", suggesting, "foreground, middle ground, and distant view, together with all the subjective qualities
