Rise Of Architectural History Duvale

Buildings are the most tangible and evocative products of human societies and human aspirations, yet architectural history is a comparatively new discipline - if it is really a discipline at all, taught though it is in several universities. Writing about architecture was very much the province of architects until the 1930s, when the gentlemanly ...

In the seminal book, *Architecture's Historical Turn: Phenomenology and the Rise of the Postmodern*, Jorge Otero-Pailos traces the rise of architectural phenomenology as the key influence behind the shift from Modern to Postmodern thinking in western architecture during the 1960s and 1970s. This is the first book to thoroughly describe the effects of phenomenological philosophy on postmodern style.
