### **Soap Queen Cold Process Soap**

Soap batter has expanded out of the mold (soap volcano): This isn't a common occurrence for cold process soap; you're more likely to get soap cracks. In 14+ years of soaping, I've never had a soap volcano and when I tried to force one for a photo for my print book, Simple & Natural Soapmaking, I still ended up having to fake the look ...

process soaps are perfect for summer! The layers are simple to recreate with thick soap. SEE MORE. Wildflower Rebatch An easy-to-make recipe with shea, cocoa, and mango butters, topped with dried flowers for an elegant finishing touch. SEE MORE.

### **Bramble Berry® Soap Making Supplies**

A few months ago my fiance gave cold process a try and had the idea to swirl in honey for visual effect. The batch turned out exactly as you described - the honey heated the soap batter that it came in contact with and accelerated saponification past whatever point at which you want to stop in cold process (light trace, I guess).
