A Fly Cutter is any single point cutter that is used on a mill. The most common fly cutters are used as surfacing tools. But, you also see single point form tools referred to as fly cutters on mills, for example a form tool being used to create an involute on a gear tooth. Fly Cutters are a type of Face Mill that only uses 1 cutting edge.

Fly Cutter: Ultimate Surface Finish Rewards [Complete Guide]

These bits cut tight-fitting cope and stick joints for Shaker style door frames. Bearing-guided to prevent dips and ensure a perfect fit. Sturdy 1/2" shanks and precision balancing ensure stability while routing, while the high-grade carbide provides a long cutting life.
